

Please join us on  
Thursday, September 9th at 7:00pm for:

# Those Urban Bobcats

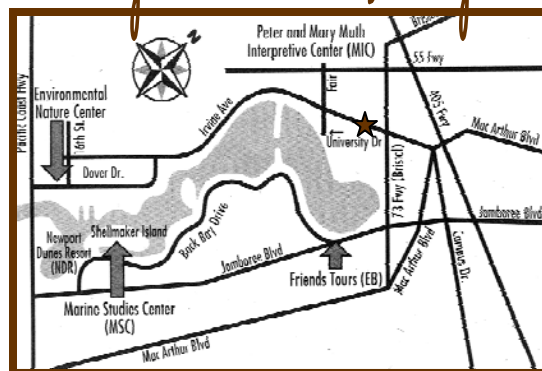

in the Muth Interpretive Center Theater  
2301 University Drive in Newport Beach

We will explain the differences between  
bobcats and cougars or mountain lions  
and talk about the adaptations that the bobcats  
have made in order to coexist with humans in this urban setting.  
We will be showing recent photos of 'Babe' and her offspring and will attempt  
to explain her behavior as she sought the security of  
our residential yards to protect her newborn kittens.

Please let us know if you plan to attend  
email us at [unbic@ocparks.com](mailto:unbic@ocparks.com)  
or leave us a message at (949)923-2275

The Theater holds 100 guests - so the first to arrive will have seats.  
Light refreshments will be served prior to the event.

If you have photographs of Babe that you would like to share you are encouraged to do so by email.

Hosted By: Newport Bay Naturalists & Friends, Orange County Parks and Newport Beach Animal Control  
Presented By: Dick Newell and Don Millar of Orange County Trackers ([octrackers.com](http://octrackers.com))
